Last user creation

```
[root@dev ~]# sudo useradd newuser1
[root@dev ~]#
```

```
adham:x:1000:1000:adham:/home/adham:/bin/bash
abdein:x:1001:1001::/home/abdein:/bin/bash
mysql:x:27:27:MySQL Server:/var/lib/mysql:/sbin/nologin
apache:x:48:48:Apac          re/httpd:/sbin/nologin
user4:x:1002:1002::     $6      :/bin/bash
user5:x:1003:1003::/home/user5:/bin/bash
newuser1:x:1004:1004::/home/newuser1:/bin/bash
[root@dev adhamscripts]#
```

```bash
#!/bin/bash

awk 'BEGIN{ FS= ":" }{ if ($3 >= 1000){print $6} }' /etc/passwd | while read line
do
        if [ $(stat -c %Y "$line") -gt $(date -d 'yesterday' +%s) ]
        then
            echo ""$line" is new user and created last 24 h"
        fi

done

# -c custom format
# %Y format specifier that tells stat to output the last modification time
```

```
[root@dev adhamscripts]# vim last-user-created.sh
[root@dev adhamscripts]# chmod +x last-user-created.sh
[root@dev adhamscripts]# ./last-user-created.sh
/home/newuser1 is new user and created last 24 h
[root@dev adhamscripts]#
```

```
[root@dev adhamscripts]# stat -c %Y /home/newuser1
1733345403
[root@dev adhamscripts]# date -d 'yesterday' +%s
1733259079
[root@dev adhamscripts]#
```
